**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claims contain subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Applicant recites in the claims the presence of a lithium admixture component however it is unclear as to just what the lithium admixture is supposed to be. According to the specification: "the lithium admixture is a commercially available product". Nowhere does applicant adequately describe what is contained in the lithium admixture. Accordingly since the specification does not describe the make-up of the lithium admixture component the claims which recite this component are not enabled by the specification and therefore fail to comply with the first paragraph of 35 USC 112.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1755

4. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 it is unclear as to the units which accompany the Blaine fineness. Note that applicant merely recites "less than 290". Is this a surface area, particle size or what? Clarification is requested. The phrase "tricalcium aluminate of about 6%" is not understood. Is applicant meaning to say that the cement has a tricalcium aluminate content of about 6%? Clarification is requested. It is unclear as to the makeup of the lithium admixture encompassed by the claim. Also it is unclear as to whether or not the range of "0.01-5%" refers to the amount of lithium admixture and at least one further additive or just the amount of the further additive. Also it is unclear as to the types of components encompassed by the phrase "further additive".

In claim 3 the phrase "high range" appears to be vague and indefinite as "high" is a relative term.

In claim 13 the phrase "fine aggregate" is vague and indefinite as "fine" is a relative term. It is unclear as to the makeup of the lithium admixture encompassed by the claim.

In claim 14 the phrase "fine aggregate" is vague and indefinite as "fine" is a relative term. It is unclear as to the makeup of the lithium admixture encompassed by the claim.
